@medv2 #niedchat What improvements does Fronter provide over LNI?

09-May-12 20:03 | chris__cooke

@amandasalt @debbiere Track changes is too fiddly for languages, and slower than red pen. don't like it. #Niedchat

09-May-12 20:04 | dmurray742

@chris__cooke @dmurray742 that sounds hard, I like to use a nice new pen....pathetic I know..suppose I could learn #niedchat

09-May-12 20:04 | debbiere

@dmchugh675 @mrodonnell #niedchat Agreed - no blocking is good but teaching responsibility of a personal device will be a Learning curve

09-May-12 20:04 | mapsman

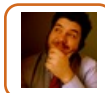

@dmchugh675 Wifi will be tiered - Managed and Guest - Guests will cater for the ipads etc (but is only SSID and VLAN seperation) #niedchat

09-May-12 20:04 | MrODonnell

@dmurray742 @chynty267 #niedchat Hand in your receipt to the boss ;0) Great for annotating on whiteboard!

09-May-12 20:05 | chris__cooke

@dmurray742 @chynty267 @chris__cooke we paid £40 and more in the past for programs in a box but I still can't bear to pay£6.99! #niedchat

09-May-12 20:05 | simonmclean

@chris__cooke @dmurray742 Also hate it when kids hide behind technology for not handing in work, "my computer wasn't working." #niedchat

09-May-12 20:05 | debbiere

Will teacher's be able to ignore MySchool like they ignored LNI? #Niedchat

09-May-12 20:05 | dmchugh675

@dmchugh675 That's my BIG fear. I think once we get refresh in Sept/Oct it should boot us straight into MYSCHOOL. #Niedchat #whynot?

09-May-12 20:06 | dmurray742

@dmchugh675 Fronter is your LNI equivalent really. #niedchat

09-May-12 20:06 | karen_irwin

@debbiere @dmurray742 #niedchat Agreed, always a pain. I still like pens too!

09-May-12 20:06 | chris__cooke

RT @dmchugh675: Will teacher's be able to ignore MySchool like they ignored LNI? #Niedchat - I hope they wont need to

09-May-12 20:06 | MrODonnell

@mapsman @mrodonnell Very much so Tim...but with Securus they will have to learn quick that there is no hiding place! #niedchat

09-May-12 20:06 | dmchugh675

Will it support Studywiz as a VLE? #niedchat

09-May-12 20:06 | debbiere

@dmurray742 @mrodonnell @dmchugh675 My impression was that it would be there on startup? #Niedchat

09-May-12 20:07 | mapsman

@dmurray742 @MrODonnell @dmchugh675 Agree! It should be non-negotiable or you'll always have those who can't be bothered! ;) #niedchat

09-May-12 20:07 | karen_irwin

@amandasalt @dmurray742 Good point about CA #niedchat

09-May-12 20:07 | debbierea

@simonmclean @dmurray742 @chynty267 #niedchat Are you a, "69p, is it worth it?" sort of guy, Simon?!

09-May-12 20:08 | chris__cooke

@amandasalt MP3 much faster, and a better quality commentary. CA can be typed too (CCEA) - not that i do that. #Niedchat

09-May-12 20:08 | dmurray742

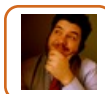

@grib @iChrisTaylor I listened...and I tweeted it! #niedchat

09-May-12 20:08 | dmchugh675

Would people like the new service to open directly into MySchool as a full screen start up app #niedchat could we run a poll?

09-May-12 20:08 | MrODonnell

@chris__cooke @dmurray742 @chynty267 it's taken me 3 versions and a lot of soul searching to buy an iPad! Lol

V much so! #niedchat

09-May-12 20:09 | simonmclean

@chris__cooke #niedchat Defo new features in there 144chars not enuff 2 explain. some u will love...

09-May-12 20:09 | medv2

@MrODonnell I'd like that. #niedchat

09-May-12 20:09 | dmchugh675

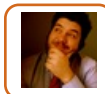

@MrODonnell Absolutely! #niedchat

09-May-12 20:09 | karen_irwin

@amandasalt Hahahah - not applicable for Irish. Never thought of that as issue for other languages. #weecocoon #Niedchat

09-May-12 20:10 | dmurray742

@MrODonnell Yes please, the simpler the better, especially for staff who find making the tech jump difficult! #niedchat

09-May-12 20:10 | simonmclean

@simonmclean @dmurray742 @chynty267 #niedchat Same here Simon. I bought the iPad but the boss has covered the cost of any educational apps!

09-May-12 20:10 | chris__cooke

@MrODonnell sounds like a good idea. #niedchat

09-May-12 20:11 | chynty267

@dmchugh675 massive need for good software if we are to move away from paper based activities, shortage of software engineers #niedchat

09-May-12 20:14 | debbierea

09-May-12 20:14 | dmchugh675

i think MySchool and Fronter gives choice and that in turn changes things. Dramtically within a managed service offering #niedchat

09-May-12 20:15 | MrODonnell

@simonmclean @chris__cooke @dmurray742 @chynty267 #niedchat what idea? Wat have I missed?

09-May-12 20:15 | Conneist

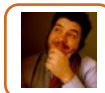

@chris__cooke is it purely for work then? My iPad is synced so all info on all devices. Not sure I want kids 2potentially access #niedchat

09-May-12 20:15 | karen_irwin

Are we seeing a retreat from Moodle integration that was signposted in the original PR stuff? Not much being said... #Niedchat

09-May-12 20:15 | dmurray742

@Conneist @chris__cooke @dmurray742 @chynty267 buy an iPad and get school to buy your apps! #niedchat

09-May-12 20:16 | simonmclean

@debbiiera I think the software is there. Why print when you can present docs, videos, animations online? #niedchat

09-May-12 20:17 | dmchugh675

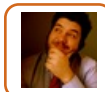

@karen_irwin #niedchat No, my own, for presentation purposes only or for kids using it while presented on the IWB

09-May-12 20:17 | chris__cooke

@dmchugh675 @iChrisTaylor Cheers. I had a link to your blog in my show notes, but don't remember if I got to mention it #niedchat

09-May-12 20:17 | grib

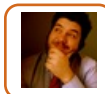

@karen_irwin @chris__cooke agreed but it's too tempting to use everyday, might have to unsync, strip it back and just use it :-(#niedchat

09-May-12 20:18 | simonmclean

@chris__cooke so kids don't use it unless you're supervising? #niedchat

09-May-12 20:18 | karen_irwin

@chris__cooke @karen_irwin mine would be for the same uses Chris, not general pupil use #niedchat

09-May-12 20:18 | simonmclean

@dmchugh675 Yeh!!! The only 'support' we need is access to SIMS integration and link to MY-SCHOOL. I heard SIF mentioned... #Niedchat

09-May-12 20:18 | dmurray742

@dmurray742 Moodle will be an option but wont be available to Year 2. Im sure you will prefer Fronter once you give it a chance #niedchat..

09-May-12 20:18 | MrODonnell

@mapsman How do we bring everyone along with us tho? "Geeks" are excited... what about everyone else? :S #niedchat

09-May-12 20:20 | karen_irwin

@MrODonnell @dmurray742 I heard a rumour there will be a cost to schools wishing to integrate a moodle. Sounds unfair if true. #niedchat

09-May-12 20:20 | dmchugh675

@karen_irwin #niedchat Exactly, you've got to draw the line if it's your own. Next step would be for school to buy iPad once they see benefits

09-May-12 20:20 | chris__cooke

@simonmclean @dmchugh675 SIMS Discover looks awesome! Minority Report here we come... #Niedchat

09-May-12 20:20 | dmurray742

RT @mapsman: #niedchat I do feel we on the edge of a huge paradigm shift in education in NI. We are about to step into a real ICT world. Fantastic!

09-May-12 20:21 | dmurray742

@mapsman @MrODonnell Agree 100% - the vision expressed at Roadshow convinced me. Felt something huge is about to happen. #Niedchat

09-May-12 20:21 | dmurray742

Last 5 mins...shutting early to comb my hair for the podcast! #niedchat

09-May-12 20:21 | dmchugh675

@dmchugh675 @dmurray742 hard to discuss the full options about VLE choice. But more info will follow #niedchat

09-May-12 20:21 | MrODonnell

@karen_irwin #niedchat I have talked to C2k and Northgate about this - training and rollout are very important . . .

09-May-12 20:22 | mapsman

@mapsman @dmurray742 I hope so...it will need strong leadership in school though. #niedchat

09-May-12 20:22 | dmchugh675

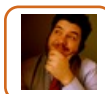

@MrODonnell @dmchugh675 Good to know. We can be patient. Enough to play with in Year 1. #Niedchat

09-May-12 20:22 | dmurray742

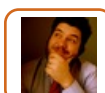

@icteducation #niedchat Did I hear there is a trial username & password for Fronter?

09-May-12 20:22 | chris__cooke

@dmurray742 @dmchugh675 @MrODonnell I'd love to see what the web based side of Discover will be. Would use iPad to show data #niedchat

09-May-12 20:22 | simonmclean

@Conmeister @dmurray742 @dmchugh675 it's a front end to the SIMS assessment manager module, lots of lovely graphs at fingertips! #niedchat

09-May-12 20:22 | simonmclean

09-May-12 20:23 | voxomalley

09-May-12 20:23 | grib

@simonmclean @Conmeister @dmurray742 @dmchugh675 #niedchat We just need some reliable data at primary level to interrogate then!

09-May-12 20:24 | chris__cooke

@simonmclean eugh, I hate graphs #niedchat. Can I just use my planner and my highlighters please...

09-May-12 20:24 | debbierea

@mapsman You're funny...!! ;) #niedchat

09-May-12 20:24 | karen_irwin

09-May-12 20:25 | icteducation

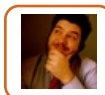

@chris__cooke #niedchat there is but TBH the sample does not do it justice IMHO. username and password on presentation on C2kexchange

09-May-12 20:25 | medv2

@simonmclean @dmurray742 Agreed...looks brilliant but then again anything would have been an improvement! #badgeholdingsimshater #niedchat

09-May-12 20:25 | dmchugh675

@chris__cooke @Conmeister @dmurray742 @dmchugh675 lol yes, but if that's an assessment policy issue lol #niedchat

09-May-12 20:28 | karen_irwin

@chris__cooke @Conmeister @dmurray742 @dmchugh675 the access to manipulate census data is amazing, it's not just stan scores now #niedchat

09-May-12 20:28 | simonmclean

@debbierea @dmurray742 @simonmclean I'm sure it does but the multitude of menus makes it a nightmare for the 'casual' user! #niedchat

09-May-12 20:28 | dmchugh675
